Got Backup Compensation Plan Part 2

Welcome to our **Binary Residual Compensation Plan** part 2!

On top of our Commission Plan 1. You will also be able to cash in on our added Binary Compensation Plan!
This will be the third way you will be able to cash in with gotBackup!

- All Resellers in gotBackup will also earn in our binary compensation plan.
- How much one cycle pays varies upon the profitability of the company each month. Binary commissions are calculated at the end of each month.

Binary Qualification

- Maintain your monthly membership.
- There are no qualifications needed to make binary commissions. You do not need to make any referrals. However if you do refer others your binary commissions will grow much faster.
- Create a cycle (4 on “power” leg and 2 on “weak” leg) to earn binary residual commissions.

* We always advise that you place members on the outside leg position.

Got Backup Compensation Plan Part 2

Binary Holding Tank For Your Placement

- Any direct sales you bring in that are ACTIVE and become RESELLERS, will go in your holding tank for placement in your organization. Customers only DO NOT go into your holding tank.
- You have the advantage of maximizing your binary residual commissions.
- You can use this as leverage to get on the phone with prospects.
- Encourage Team Work.
